Hi Stephen:

Because September 3rd follows a four day weekend for all of EPA, I recommend Thursday, September 5, 2013 for any meeting with Curt G. or a day later in the month of September.

Subject: FW: Grisham Jr. request for meeting with Region 6 EPA regarding Arkwood Superfund Site

Hi Arkwood Team,

Curt is requesting a formal meeting with EPA to go over several topics (see below). If we do have this meeting, I would like to request a representative from ADEQ and EPA HQ, in addition to R6 staff. Looking at the topics, this meeting will be more productive after we receive and review the updated CSM from McKesson. Also, info on injection stoppage and ICs would be clearer by then as well.

Currently, these dates and times will work for me. Please let me know of your availability:

- Tue Sep 3, 12-4 pm Central
- Wed Sep 4, 12-4 pm Central
- Thu Sep 5, 12-4 pm Central

Thanks,

Hi Steve,

I would like to request an in-person meeting in Dallas with the R6 Arkwood team, as I have unresolved questions and concerns regarding the site. These concerns include:

- 1) what is the result of the site's reassessment for dioxin risk?
- 2) what is the outcome of the discontinuance of on-site H2O injection "pilot study" and recommendation for the "study" going forward?
- 3) what is the outcome of the new Arkwood conceptual site model creation process?
- 4) what is EPA's status on Institutional Control (aka "Deed Notice" or "Deed Restriction") for Arkwood as approved by EPA's Don Williams and recorded by my father the owner of Arkwood on August 30, 2010 in Boone Co., Arkansas, including any EPA-required modifications and including clarification of the site's actual boundaries and legal description per the new conceptual site model and possible new survey for site
- 5) other topics not listed here

Please let me know when would be a good time for you all.

Thank you.

Charles Curtis "Curt" Grisham, Jr.
